NEWCASTLE
BABY SETTling
CONSULTANT

HOME VISIT BABY SETTling CONSULTATIONS FOR 0-3YRS

My aim is to provide techniques for warm, sensitive, responsive care-giving for 0-3 year olds through home visit consultations. I use Circle of Security(COS) Principles in my work with parents. Working in their own home to tailor the best approach for the individual, that meets their baby and family needs.

Focusing not only on Mothers but making sure Fathers are just as involved in the entire process. I gain a deeper understanding of the parent-infant relationship and provide both parents with techniques to build a strong connection with their child.

MY SERVICES

Working in partnership with the parents rather than adopting an expert model, as I recognize the relationship between myself and the parents and their infant is crucial to the understanding of their goals and the success of possible interventions.

Full assessment including EPDS for Mothers and Fathers, to ensure post-natal depression, anxiety or mental health issues may be detected early.

A full history of the pregnancy, birth and postnatal period, ensuring a deeper understanding of the parent-infant relationship.

Promoting the parent-infant relationship through helping the parents to gain a better understanding of their infants cues and routines

Social & Emotional questionnaires to ensure the infants development is satisfactory for age.

NCAST Feeding and teaching assessments to assess 73 items of parent-infant attachment and attunement.

QUALIFICATIONS

WHAT MY CLIENTS SAY

"Sherrian was so professional and helpful for me. She is such a lovely and passionate person which shines through her work. She was so caring and loving to my baby girl and I felt at ease everytime she showed me how to settle her"

"I cannot recommend Sherrian highly enough. I was at breaking point with my six month old, just three days following Sherrian's visit, I could put my daughter down in her cot and walk away with no feeding, rocking or patting to sleep "

"I now realise that all newborns are born with their own little personalities and being able to see this in my baby is amazing".
