NEWCASTLE
BABY SETTLING
CONSULTANT

ARE YOU PREGNANT OR HAVE A BABY 0-3 MONTHS OF AGE?

Do you want to learn more about your particular infant and their temperament/strengths/challenges and how to help them settle? Home Visit offered for Newborn Behavioural Assessment Scale (NBAS) at 0-8 wks of age OR Newborn Behavioural Observations (NBO) for 8wks to 3mths of age OR a combination of both assessments.

"I highly recommend getting the Brazelton assessment done on your newborn baby".

"The Assessment "has been so helpful and has shaped the way I care for my bub! "

"I now realise that all newborns are born with their own little personalities and being able to see this in my baby is amazing".

"At the end of the assessment I had a 'developmental plan' for my daughter, which listed her strengths, the things that 'stressed' her and ways I could help her based on these strengths and stresses which made me more confident as a new mum, which in turn helped me bond even more with my new baby as I could now see her as her own little person".

2HR HOME VISIT + A DETAILED REPORT FOR \$225
